Starting a Video Visit via a Computer

IMPORTANT NOTICE

Please ensure you have completed the following steps prior to your scheduled Video Visit:

1. Create a Connect account if you have not done so already. Please reference the “Creating an Account” patient guide for additional instructions
2. Disable any pop-up blockers enabled within your web browser as this may interfere with your appointment
3. Please allow your device to access your camera and microphone when prompted
4. If you are accessing a Group Video Visit, you must have the Zoom app downloaded to your device before joining. You do not need to have a Zoom login.

STEP 1:

Log into your Connect account, click “Visits” and select your scheduled appointment

Note: While we recommend all patients create a Connect account, if you do not have a Connect account, you can access your Video Visit by clicking on the link in your eCheck-In reminder message sent by email or text. Please follow the remaining steps listed to connect with your provider.

For any questions, or additional support, please call Connect Technical Support at (646) 962-4200 or visit MyConnectNYC.org
